safe shipping pack

QUICK
ASSEMBLY

SAFE AND
COMPLIANT

ROBUST

safe shipping pack

A practical and sturdy packaging

The **E-Pan** crate consists of three parts: lid, side, and solid wood bottom with 2 or 4-way entry. **The assembly**, facilitated by a interlocking system between the parts, is **extremely simple** and fast. Possibility to produce small batches. Customizable with logos, graphics, hooks, etc.

Enhancing stacking stability

Compared to traditional wooden crates, **E-Pan** offers: **greater protection against weather conditions, safety** even in maritime shipments, not fearing temperature fluctuations. **High mechanical resistance and compliance with ISPM-15 FAO phytosanitary regulations.**

E-Pan plywood crates are made with **high-quality** raw materials to ensure **strength, flexibility, and durability.** **E-Pan** comes with various types of bottoms and can be palletized with 2 or 4-way entry.

Customizable printing in various colors

Highly customizable:

Small-sized crate

Crate with external reinforcements and hooks

Customizable with internal reinforcements

Customizable supports

Customizable saddles

Packable in sets
