Velapack

Fragile items to ship?
Do it with Velapack.

Packing for a **secure shipment** of delicate items. Composed of two main elements, a foldable protection made of sturdy corrugated cardboard and a surface of smooth or embossed polyethylene foam. **Velapack** perfectly adapts to even the most irregular shapes and ensures highly effective **protective performance**, with low unit costs, for secure shipments anywhere. Optimized storage: the boxes are supplied compressed to optimize transport and storage.

External shock protection

Soft interior protection

Easy to assemble

Velapack securely sealed. Ensures a firm position for the product without fearing impacts.
